

The New Mexico Department of Health will be providing free water quality tests for eligible residents in your area.

In order to receive free testing, you must:

- be at least 18 years of age
- be willing to provide a urine sample
- use a private, or shared well for most of your drinking water
- be willing to provide a sample of drinking water
- be willing to complete a survey about potential sources of exposure

We will be in your neighborhood on:

**Friday and Saturday
November 3 & 4**

The free test will check for arsenic and other chemicals in your drinking water and those metals and chemicals in plastics (phthalates) in your body through a sample of your urine.

If you are interested, please contact XXX at **(XXX)XXX-XXXX** or **XXXXXXXX@state.nm.us** for more information or to schedule an appointment.

A limited number of tests are available. Call today!
